TO: All SEA Stations
25X1A6a

FROM: Chief, FE Support Base,   INFO: C/FE
                                                        COS/MA
                                                        ATBA

SUBJECT: General: Administrative
25X1A   Specific: Services of FE Support Base Available to SEA Stations

REFERENCE: FE _____ (12 July 1955) to all SEA Stations

1. Reference authorizes Chief, FE Support Base, to support SEA Stations, and provides direct channels for SEA Stations to utilize FE Support Base facilities and personnel in support of their operations. Reference also authorizes the Chief, FE Support Base, to approve certain logistics services over and above

███

types of facilities and services available to Southeast Asia Stations on request.

2. a. In general the FE Support Base is in a position to provide advice and guidance in the Logistics, Legal, Medical, Personnel, Audit, Special Services, Comptroller, Finance, Budget, Security, and Management Fields, and to assist in the development of support annexes to over-all War Plans.

   b. It can provide:

   (1) Material support from stocks on hand or by developing new sources of supply.

   (2) On-the-job training for SEA support personnel in any of the support fields indicated above--either at the Station or at the FE Support Base.

   (3) On a limited basis, technicians in any of the above support fields on TDY to assist with specific problems in those fields.

3. SEA Stations are invited to submit support problems to the FE Support Base direct. Such problems can often be resolved locally and more expeditiously than through reference to Headquarters. If ready solutions are not available locally or authority is required beyond that delegated to the Chief, FE Support Base, assistance will be promptly requested from Headquarters. Personal contact with each Southeast Asia Station with respect to the foregoing will be made by representatives of the FE Support Base to the extent considered desirable and reasonable by SEA Station Chiefs.
